

# QCAM FX BIAS (Business Intelligence Alpha Strategy)

FOR QUALIFIED INVESTORS ONLY | FACTSHEET NOVEMBER 2021

## The Company

QCAM Currency Asset Management AG is an independent Swiss financial services provider that focuses primarily on currency and macro management. The investments offer an attractive risk/return ratio with low correlation and high liquidity. QCAM's services are precisely tailored to the aims and needs of an institutional clientele. The team of QCAM combines in-depth specialist knowledge, many years of experience in consultancy, client care and asset management for currency mandates, and an excellent international network of contacts. QCAM Currency Asset Management AG is regulated by the Swiss Financial Market Supervisory Authority FINMA and the U.S. Securities and Exchange Commission SEC.

## The Program

FX BIAS offers alternative investment investors a systematic methodology to gain exposure in liquid currencies. The rule-based strategy uses business sentiment surveys for 8 countries/currencies (USD, EUR, JPY, GBP, CHF, CAD, AUD and SEK) to build a diversified currency portfolio. Currency exposures are weighted towards more liquid currency pairs which are less driven by noise and/or large order flows. The returns are over time uncorrelated to traditional asset classes and common risk factors in FX markets. The strategy can be customized regarding risk and return targets and is currently available via AMC's with UBS and separate managed accounts.

Portfolio Exposure	up to 150% of base portfolio

## Manager Comment

The FX BIAS certificate started November short EUR, JPY, GBP, AUD, CAD and SEK and neutral CHF with a net long USD position of about 94%. There have been two changes during the month. The CHF position switched from neutral to short and the JPY position from short to long, reducing the net long USD position to 54%. The change in the JPY position was noteworthy. Japan was a cyclical laggard for the entire year but started to gather momentum recently.

Overall, the USD appreciated about 2% versus the basket of all other currencies during November translating into a 3.3% gain for the FX BIAS certificate. Performance has been positive for all positions except for a small loss in the CHF position. The short AUD and SEK positions produced the strongest gains.

There have been two more signal changes at the start of December, with both the AUD and the SEK shifting from short to long. Overall, the FX BIAS is now short EUR, GBP, CAD, and CHF and long JPY, AUD and SEK with a net long USD position of around 37%.
